

OPTIMIZE IT EFFICIENCY WITH NETAPP STORAGE SOLUTIONS FROM FUSIONSTORM

Storage is the number-one line item in most IT budgets. Yet, many organizations buy at least 25% more capacity than they need because of inefficient practices and architectures. FusionStorm can help you cut your storage costs down to size with NetApp solutions that provide greater efficiency, scalability, performance and data protection.

Get more from FusionStorm

In addition to achieving STAR Partner status and maintaining the highest NetApp certifications, FusionStorm maintains strategic partnerships and holds the highest certifications from Citrix, Cisco, Microsoft and VMware. This gives us the ability to smoothly integrate NetApp solutions into any virtual environment, while ensuring protection for database applications from Oracle and Microsoft, as well as Microsoft Exchange and SharePoint.

FUSIONSTORM AT A GLANCE

- Offices in 21 U.S. cities and growing
- Over 2,000 customers in multiple industries
- 360+ employees with 165+ engineering/technical roles
